These four-speed units will bolt into many existing Ford standard-shift applications. If you are converting from an automatic, you will need to find a compatible manual bellhousing to go with your Toploader. There were 18 different Ford bell housings used from 1963 to 1973 that will accept this transmission.

Ford Toploader Four-speed Transmission | Hemmings Daily

The transmission would also garner other pseudonyms like: Top Loader 4 speed O.D, RUG, RTS, and T-170. The T&C-O.D" transmission was first introduced during the late 70's in Ford passenger cars like Granadas, Fairmonts and Monarchs. This "car version" of the transmission was commonly referred to as the "RUG".

Ford T&C Overdrive Transmission | Herm The Overdrive Guy

A Toploader transmission is a manually shifted three and four speed gearbox introduced in 1963 by the Ford Motor Company to replace the BorgWarner T-10. It was used in most Fords and Mercurys from 1964 until 1973 as well as some foreign models. Officially designated the 3.03 three speed or Ford design four speed. The 3.03 is the centerline distance between counter shaft and mainshaft.

Ford Toploader transmission - Wikipedia

This is a list of tag numbers that decode the transmission. The lower number on the tag is the serial number of the transmission in the order it was tagged, it has nothing to do with the serial number of the vehicle the transmission is in.
