### Motorcraft 2bb1 2150 Parts Page - Carbs Unlimited

Motorcraft didn't use 2 different sized screws in any carburetor. If the screws go in at different depths in order to get the idle to smooth out and there is more than 1/2 turn difference, then there is something wrong on one side of the carburetor. Update - Solution to this problem was a dirt. Cleaned out and all was well. 2100, 2150 Differences

### Motorcraft 2150 Technical - Carburetor Parts

The Motorcraft 2150 is a Ford (also used by AMC) 2-barrel carburetor manufactured from 1973 through 1983, based heavily on its predecessor, the Autoilite 2100 carburetor,. The 2150 improved on the 2100s design through the introduction of a variable air bleed system, which keeps the air to fuel mixture better balanced throughout the carburetor's full range of operation.
